

WE ARE

To all those who are steadfastly determined,
To those who never raise their voice but move mountains,
To those who endure in silence... and always come back fighting.

To those for whom self-sacrifice to serve the group
is a philosophy for life,
To those who tremble for their team and defend their
country's flag whatever happens,
To those who get misty-eyed and who exult as one in the victory of a nation.

To those who draw tomorrow's wisdom from the depths
of a veteran's look,
To those who were lost, and found the strength to get
past the unavoidable
And come out bigger, stronger, taller.

To those who make their convictions the impetus
behind their actions,
To those who hold their head high and never give up.

To those who stay humble in victory..
Dignified in defeat,
To those who have the courage to fight for their dream.

If you too are convinced that however great you may be,
alone you will never win..
But that with a team's strength, you will beat your limits!

If for you, too, it's not a question of CAN,
But of WANTING to accomplish what is deep inside of you:

LIVE MORE STRONGLY
FACE FEAR AND LEAD THE BATTLE
FROM THE HEART

With respect, always with respect,
Then we share a unique bond.

Let's be sport and so much more,
Together let's shift the lines.
