Cardiac Screening

YOUR PERSONAL DETAILS	
Name	
Date of birth	

Cardiac Questionnaire Disclaimer

You have been asked to fill out this medical questionnaire on your own behalf. This questionnaire has been devised to aid in identification of young people who currently engage in competitive sport, but who could be at risk of suffering a serious cardiac event. This is not a common occurrence. The number of events can however be reduced by careful evaluation of symptoms and family history.

No screening system can guarantee 100% accuracy. If you answer "Yes" to any of these questions, you may be required to undertake further tests or referred to a Physician for further investigation. It is very important that you answer these questions honestly. You must however be aware that it is possible that as a result of this process you could potentially be disqualified from participation in your chosen sport.

In identified situations an ECG may also be mandatory as part of this assessment and the signing of this consent document confirms your agreement to undertake this ECG.

I confirm that I have read and understood the above information, and that the information I have given is accurate to the best of my knowledge.

Signed:

Dated:
