World Rugby

In the Matter of an Anti-Doping Rule Violation by Stanislav Selskii (Russia) (the “Player”) Contrary to World Rugby Regulation 21

Reasoned Decision

[1] The Player underwent an In-Competition Doping Control on 6 March 2021 following a Rugby Europe Championship Match between Russia and Romania, held in Sochi, Russia.

[2] The Player’s Sample was sent to the WADA Accredited laboratory in Cologne, Germany for analysis and on 25 March 2021 returned an Adverse Analytical Finding (AAF) for the Specified Substance, Clomifene.

[3] Clomifene is classified under S4. Hormone and Metabolic Modulators of the 2021 WADA Prohibited List. The Player did not have a Therapeutic Use Exemption approving the use of this Prohibited Substance to treat a legitimate medical condition.

[4] The Player was notified of the AAF and his provisional suspension by letter dated 26 March 2021. On 3 April 2021 the Player offered an explanation for the finding and waived the analysis of his B Sample.

[5] By letter dated 8 June 2021, the Player was given formal notice that he was being charged with an anti-doping rule violation, namely a breach of World Rugby Regulation 21.2.1 on the basis that Clomifene (a prohibited substance) was present in the player’s sample (“the ADRV”).

[6] The Player was notified that it was World Rugby’s position that the ADRV was intentional (under World Rugby Regulation 21.10.2.1.2) and that World Rugby would be seeking a four year period of Ineligibility.

[7] The Player was also informed that if, within 20 days of the formal notice of charge, the Player were to accept the occurrence of the ADRV and the consequences of the ADRV, then the four year suspension would be reduced to three years under World Rugby Regulation 21.10.8.1.

[8] Within the 20 day period provided for under World Rugby Regulation 21.10.8.1, the Player admitted the ADRV and waived his right to a hearing. The Player also accepted the associated sanction of a suspension of four years from all rugby activity at all levels, pursuant to World Rugby Regulation 21.10.2.1, but with the four year sanction being reduced by one year pursuant to World Rugby Regulation 21.10.8.1. The Player also acknowledged that under World Rugby Regulation 21.10.8.1, no further reduction in the period of Ineligibility shall be allowed under any other Regulation.

[9] World Rugby Regulation 21.10.8.1 provides that: “One (1) Year Reduction for Certain Anti-Doping Rule Violations Based on Early Admission and Acceptance of Sanction. Where a Player or other Person, after being notified by World Rugby of a potential anti-doping rule violation that carries an asserted period of Ineligibility of four (4) or more years (including any period of Ineligibility asserted under Regulation 21.10.4), admits the violation and accepts the asserted period of Ineligibility no later than twenty (20) days after receiving notice of an anti-doping rule violation charge, the Player or other Person may receive a one (1) year reduction in the period of Ineligibility asserted by World Rugby. Where the Player or other Person receives the
one (1) year reduction in the asserted period of Ineligibility under this Regulation 21.10.8.1, no further reduction in the asserted period of Ineligibility shall be allowed under any other Regulation”.

[10] Consequently, the Player is suspended for three years and the suspension runs from the date of his Provisional Suspension on 26 March 2021, ending at midnight on 25 March 2024.

[11] The Player’s attention is drawn to Regulation 21.10.14 (Status During Ineligibility or Provisional Suspension) which provides (so far as relevant here):

“21.10.14.1 Prohibition Against Participation During Ineligibility or Provisional Suspension

No Player or other Person who has been declared Ineligible or is subject to a Provisional Suspension may, during a period of Ineligibility or Provisional Suspension, participate in any capacity in a Competition or activity (other than authorised anti-doping Education or rehabilitation programmes) authorised or organised by any Signatory, Signatory’s member organisation, or a club or other member organisation of a Signatory’s member organisation, or in Competitions authorised or organised by any professional league or any international- or national-level Event organisation or any elite or national-level sporting activity funded by a governmental agency.”

... A Player or other Person subject to a period of Ineligibility shall remain subject to Testing and any requirement by World Rugby to provide whereabouts information.

21.10.14.2 Return to Training

As an exception to Regulation 21.10.14.1, a Player may return to train with a team or to use the facilities of a Union, Club, Rugby Body or other member organisation of World Rugby, an Association or a Union during the shorter of: (1) the last two months of the Player’s period of Ineligibility, or (2) the last one-quarter of the period of Ineligibility imposed.”

[12] This decision is final, subject to referral to a Post Hearing Review Body (Regulation 21.13.7) or an appeal, where the circumstances permit, to the Court of Arbitration for Sport (Regulation 21.13.2). The regulation sets out the timelines within which any referral or appeal must be commenced.
